

Transition Update

***This EI-Hub Transition Update email will be the primary means for delivering information and sharing resources related to the EI-Hub launch to Early Intervention Program (EIP) stakeholders. The email will be sent every other week and may be supplemented with additional direct communications to specific stakeholder groups (e.g., providers or municipalities). Please note that the Hub Club newsletter will also continue as an informational resource, including messages from the Bureau, feature information, and FAQs.*

*Here's what to expect in each **EI-Hub Transition Update**:*

- ❖ *General announcements and status updates regarding the transition to the EI-Hub solution*
- ❖ *Targeted messages and updates based on user roles*
- ❖ *Required tasks, and any relevant due dates, to you for when the EI-Hub solution launches*
- ❖ *A countdown to the launch (go-live)*

EI-Hub Launch Date Announced

The Department of Health announced a May 2022 official launch date for the EI-Hub solution. At launch, all components of the EI-Hub will be available to users. Those components include:

- ❖ Case Management
 - ❖ Service Logging
 - ❖ Billing and Claiming
-

-
- ❖ Learning Management System (LMS)
 - ❖ Provider Enrollment

Updates

The next EI-Hub Transition Update is scheduled to be delivered the second week in January and will provide information about the Health Commerce System (HCS) and how it will interact with the EI-Hub solution.

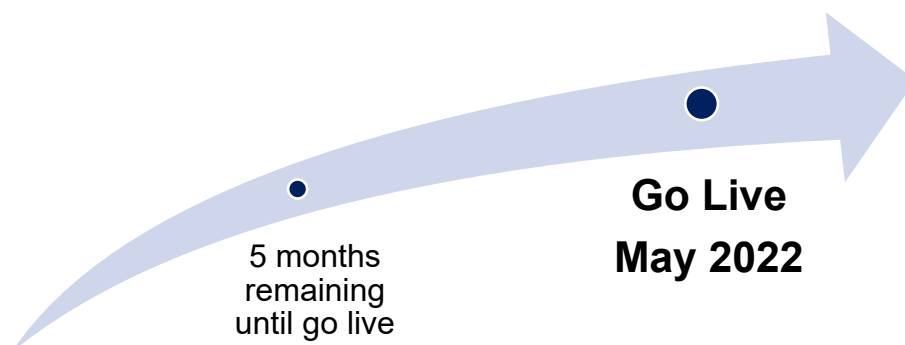

Action Required!

If you have not self-registered for the EI-Hub Learning Management System (LMS) yet, we strongly encourage you to do so. Resources for the EI-Hub transition will be regularly added through the launch date. A full set of training courses for each user type will be available approximately two months before go-live.
