HOW TO

Generate Service Reports from EI-Hub's Case Management module

NOTE

- Screen captures may not reflect the system's current state and will be updated accordingly.
- Public Consulting Group, Inc. will offer post go-live support via the PCG Help Desk at (877) 522-1065.

ABOUT SERVICE REPORTS

- Service Reports are located within the Child menu and the Reports submenu of EI-Hub's Case Management module. These reports can be customized to meet the user's needs. For example, you can run a report to view children with details of services rendered and how many services were rendered over a specific time period.
- Service Reports can be filtered and exported to Excel.

Please refer to the EI-Hub Case Management User Guide Unit 8. Child for more information.

Job Aid

HOW TO

Access Service Reports from EI-Hub's Case Management module. Visibility of reports may depend upon user role.

Step/Action

1. Select the **Child** menu from **EI-Hub Case Management's** Home page.
2. Select the **Reports** submenu. The **Reports** submenu expands listing all available reports.
3. Select the report you wish to generate (e.g., Child Details report, Evaluation Detail report)
4. The **Report** pane populates. The appearance of the Report panes differs based on the report selected. Different Report panes are shown throughout this job aid.

Service Reports

Job Aid

HOW TO

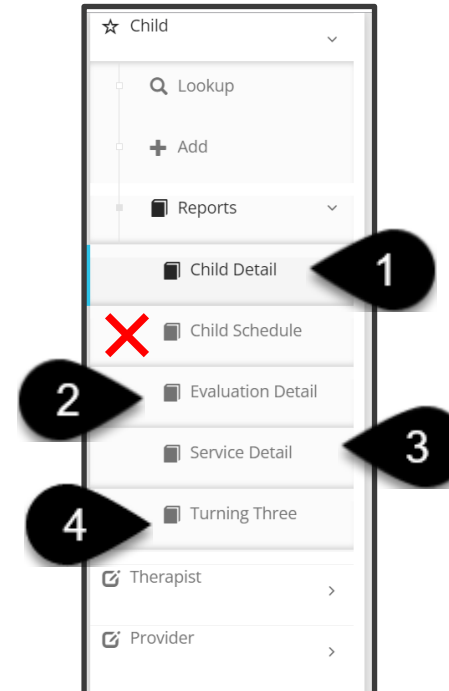

Describe the types of Service Reports

NOTE

- The Child Schedule Report will be phased out in future renditions of EI-Hub and will not be addressed in this job aid.

Report Types

- 1. Child Detail Report:** focuses on information reportable at a child-specific level. This report is considered a canned (pre-built) report. If you're searching for children residing in a particular town or children associated with specific primary guardians, this is the ideal report.
- 2. Evaluation Detail Report:** focuses on information reportable at an evaluation-specific level. For example, if you're seeking a list of evaluation requests or wish to view evaluations performed during a specified period, this is the ideal report.
- 3. Service Detail Report:** focuses on information reportable at a service detail-level. For example, a report can be generated listing service details for filtered Children (i.e., how many times those services are rendered over a specific period).
- 4. Turning Three Report:** captures all the children within nine (9) months of their 3rd birthday. This report helps you to identify which children should start the transition process.

Please refer to the EI-Hub Case Management User Guide Unit 8. Child for more information.

Service Reports

Job Aid

HOW TO

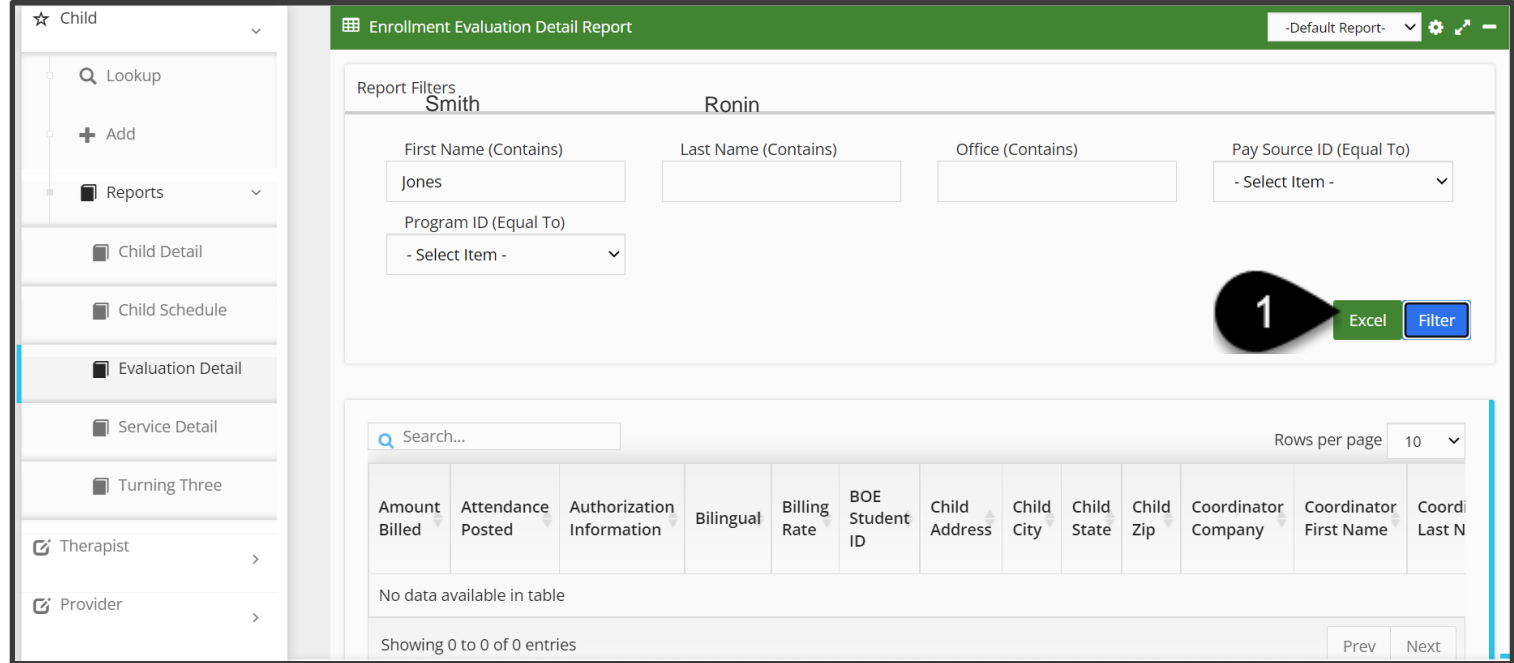

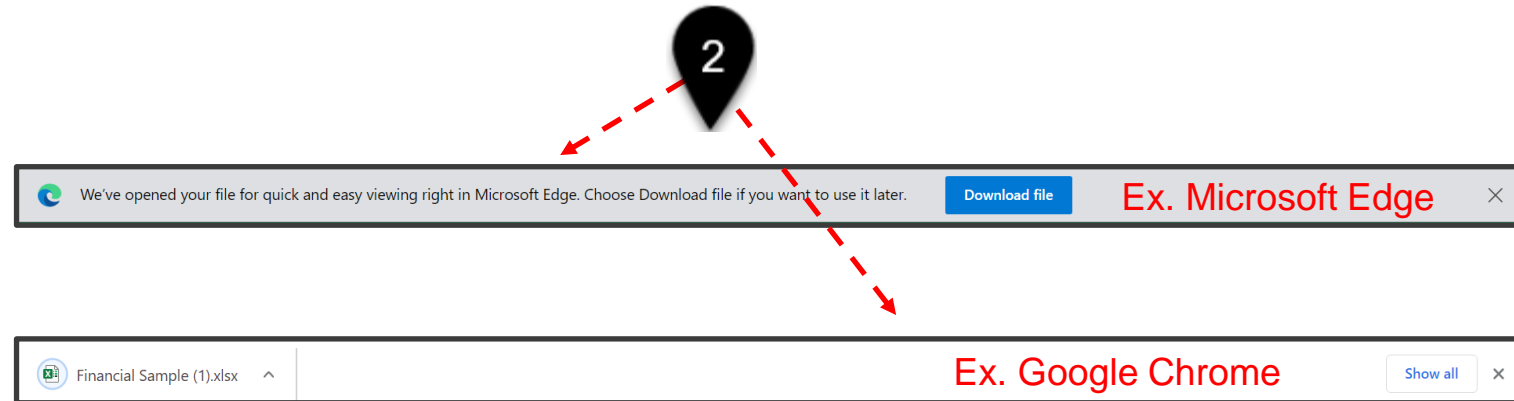

Export Service Reports from EI-Hub's Case Management module

NOTE

After a search criteria is entered in the **Report Filters** fields. Each report will provide options to conduct a search, filter, and export your results into an Excel spreadsheet. Please follow the steps/actions below to export your search results into an Excel spreadsheet

Step/Action

1. Select the **Excel** button.
2. A pop-up box will appear either at the top or at the bottom of your browser.
